Impak van die Minimum Loon

Allerweë word verag dat die voorgestelde nasionale minimumloon op 1 Mei 2018 in werking sal tree. Daar bestaan aanduidings dat die landbousektor vir die eerste jaar van inwerkingstelling, slegs 90% van die nuwe nasionale minimumloon sal moet bepaal ten einde 'n geleidelike oorgang tussen die bestaande Sektorale Vasstelling en die nuwe bedeling te fasiliteer.

Teen 1 Mei 2019 behoort die volle nasionale minimumloon in werking te tree. Dit impliseer dat boere finansiële vooruitskouings moet bereken want sou die verhoogde arbeidskoste 'n ernstige invloed op volhoubaarheid en winsgewendheid van primêre landbou hê, sal tydige alternatiewe ernstige oorweging verg.

“Die deurlopende inmenging deur die regering in entrepreneurs se keuse oor hoe die produksiefaktore bestuur moet word om tot by winsgewendheid uit te kom wek kommer,” het mnr Louis Meintjes, President van TLU SA gesê.

Dit behoort op die regering se weg te lê om 'n klimaat te skep waarbinne beleggers en entrepreneurs met vertroue graag besigheid wil doen sodat die ekonomie kan groei en gedy. Op elkeen van die produksiefaktore naamlik ondernemerskap, kapitaal, grondstowwe en arbeid hang daar tans meer vraagtekens en onsekerheid as wat daar sprake van stabiliteit na vore kom. Die onseker beleidsomgewing, met inbegrip van bewerings oor staatskaping, veroorsaak dat daar feitlik onmoontlik groei in die ekonomie verkry kan word.

In hierdie proses kan werksverliese en gevolgtrekkings toenemende landelike armoede net toeneem.

BUS-ted

Rustenburg – On Tuesday morning, 6 June 2017, commuters got a little more than they bargained for when this bus took the road less travelled and ended in a ditch.

The bus was travelling in President Mbeki Drive toward the bo-dorp when it ended in the road works. Ironically the road works are part of the new Rustenburg Rapid Transport system- which is intended to help busses travel easier and with fewer incidents through congested traffic.

It is not clear what caused the bus to end up lodged in the ditch, but reportedly no one was injured during the incident.

RLM takes proactive steps in combating crime

Rustenburg – The Rustenburg Local Municipality (RLM) in collaboration with the Police and the Community Policing Forum (CPF), have started a collaborative effort to combat escalating crime. In light of a story published in our newspaper recently, regarding increasing criminal activity in the city and its environs, the municipality is proud to announce that the collaboration is paying dividends, as scores of criminals have been arrested, and are in the process of being prosecuted.

This united front on crime focus on crime in the CBD. The RLM's law enforcement unit has deployed civilian-clothed officers to patrol the city and its environs, as well as particular identified hot spots, such as big retailers, warehouses, supermarkets, main streets, taxi and bus ranks, the CBD and main streets, with the objective of bringing the suspects to book. This should effectively reduce criminality such as armed robbery, drug peddling, human trafficking, prostitution, house breaking, theft, shop lifting and commercial crime in Rustenburg.

“We are going to intensify our public education and awareness campaign on crime combating together as a united force. We want to applaud our communities for apprehending criminals and handing them over to the Police,” the acting executive mayor, cllr Mike Mhlungu, said.
