Magalies Monster Champs crowned

Buffelspoort – Attracting a whopping field of over 2000 riders, the 15th annual FNB Magalies Monster MTB Classic, at the ATKV Buffelspoort on Saturday, 3 June 2017, featured a full marathon (66km), a marathon (33km) and a fun ride (15km).
“The Monster provides all the hallmarks of a truly South African mountain bike race, namely; stunning scenery, technical riding, a challenge tough enough to make you sweat, but not cry – and the sense of accomplishing something unique. The event is affectionately named after the ‘Monster’, a gruelling 6km climb up the northern slope of the Magaliesberg which riders of the 70km route encounter. The Magalies Monster gives riders the chance to experience the real beauty of the Magaliesberg Mountains

and the amazing rock formations of the area. Riders race through pristine vegetation and are awarded magnificent views of the Buffelspoort Valley in the heat of the race. A hugely popular event on the MTB calendar, conquering the Monster is seen as a real accomplishment in the world of Mountain Biking,” Christo van Staden, chairman of the Rustenburg Cycling Club (RCC) told the *Platinum Weekly* newspaper.
Many Rustenburg Cycling members participated in this very popular event in both the 33km and 66km races. Junior rider of the club, Willie van Eck, achieved the overall third position in the 33km race. Alec Brough, also of RCC, attained second position in the 66km race in the master’s class.
